

S.A.S. LA PRINCIPESSA NINA DI SEBORGA

Seborga, August 23nd 2023

Dear Mr. Bako,

as you know, some months ago our Principality of Seborga, through our Crown Councilor for Finance Luca Pagani, decided to involve Matej Gábriš in the development project of the first banknote ever in the thousand-year history of our country. Now that the magnificent banknote he created has been finally unveiled, I would like to extend my greetings and thanks also to you and the entire Matej Gábriš community of collectors.

I am very proud of the final result of the beautiful banknote Mr. Gábriš created, in all respects similar to normal circulating banknotes in terms of design, craftsmanship and anti-counterfeiting security features. The banknote will be a great source of pride for our country and I am sure it will be appreciated by all our loyal supporters and collectors from all over the world.

In fact, the collection of fantasy banknotes adds a touch of creativity and imagination to traditional numismatics. These intricately designed pieces offer collectors a unique opportunity to appreciate both the craftsmanship and the stories behind these imagined currencies, together with innovative security features. Collecting fantasy banknotes is like owning a piece of an alternate reality, where currency becomes a canvas for creativity. Whether you are a seasoned numismatist or a newcomer to the world of collecting, exploring fantasy banknotes opens up a world of possibilities for discovery and appreciation. It's a reminder that currency is not only a means of exchange but also a reflection of human creativity and imagination.

Hoping that you will appreciate the result of the work we have done with Matej Gábriš in the past months, I take this opportunity to send you my best wishes.

Sincerely,

Nina of Seborga

Mr. Peter Bako
